Hi Lisa – just wanted to check in on the status of the acknowledgement letter. Did you work something out with R9?

I wanted to follow up on our the conversation last week regarding the HQ letter to Hathaway. I'm not sure the status of the letter this week, I know the program indicated during the call that they were hoping to get the letter out soon.

Feel free to call to discuss, I am available tomorrow (Tues) and next Monday and Tuesday. FYI a letter just went out to the State and reflects some of our recent discussions and the direction of the corrective actions, attached.

Best,
Alexa

Ron -- Since R9 is really in the thick of things, and the RA and RC are directly involved, might be good to share a draft of the letter with them before you send it. I'm sure they will be fine with it, but just so that we are all coordinated...

I'm happy to send to the Regional Counsel if you'd prefer that we do that...

Thanks.

Yes – we are one EPA! I don't think the letter needs to go from someone higher than you.

Thanks. I agree with one letter. We are "One EPA," after all. HQ would make the decision on a national reg, so I think we should send it.

Peter and were discussing this, and he wanted me to send the letter. Do you think it needs to go from a higher authority?
